Re: Pennsylvania Department of Transportation – Multimodal Transportation Fund  
Big Ridge Bridge Repair  
Middle Smithfield Township, Monroe County, PA

Dear Mr. Bratina:

In reference to the above referenced grant application, this letter shall serve as confirmation that the grant project is consistent with the comprehensive plan of Middle Smithfield Township.

Middle Smithfield Township is committed to developing a long-range transportation plan and its comprehensive plan directly addresses issues and concerns regarding transportation and its effect on both economic development and overall quality of life within the Township. The plan specifically calls for the development of long-term strategies related to transportation alternatives, including opportunities for bicycle, pedestrian, and bus transportation. The plan recognizes that connectivity between adjacent land uses must go beyond vehicular connection if the Township is to promote improved circulation for buses, vehicles, bicycles, and pedestrians.

The Bridge Repair on Big Ridge Drive would provide for a safe and efficient passageway over Pond Creek and ease of access to nearby roads and destinations such as Route 209 and East Stroudsburg University of Pennsylvania, respectively. It will help to further boost growth and access along the major growth corridor/main street area of the Township and provide connections between attractive landscapes and land uses, scenic and historic areas, transit stops and a park and ride facility, regional commercial and tourist destinations, and the ultimately, a national park and the regional trail/greenway network.

The proposed project will help in carrying out the Township's plan to make our community a more attractive and more walkable place for our citizens and visitors and is consistent with the transportation and community development goals of our community.

Very truly yours,

  
Mark Oney,  
Middle Smithfield Township Planning Commission
